

## It's U

Saturday, 03 January 2009

A fairy in my dream told me that  
There is for me  
A sun which shines brightly in the sky  
A moon which shines brightly in sorrows  
A star that guides me on my way  
A cold breeze that cools down the temper  
A sea of love which is perennial  
A candle which gives light  
In a dark, cold night  
That time, i wished if I,  
Could see that Sun, Moon and the Star  
That time I wished if I,  
Could have that Candle and the Breeze  
But Alas! For years, I didn't find those things  
But when I met you  
I found that,  
Its U, You and U!
